THE PERRIN & ROWE STORY

THE PERRIN & ROWE STORY

Forty years ago in East London, Bob Perrin and Greg Rowe began an extraordinary partnership. Despite limited funds and a workshop that was little more than a garden shed, they began by machining brass components that others found too difficult to make.

As designers they made their name by producing the world's first 3-in-1 tap – a tap that dispensed hot, cold and filtered water – using their own Triflow technology. This blend of innovation and traditional manufacturing craft defines the Perrin & Rowe brand today.

Our comprehensive range of kitchen and bathroom brassware is manufactured in our own factories in Britain. We still make taps in small batches, pouring molten brass by hand into moulds of our own design. By controlling every element of design and production, Perrin & Rowe has become known by architects and design professionals for its quality and durability.

Bob and Greg retired some years ago, but their legacy and passion live on at Perrin & Rowe. Now a luxury brand with an international reputation, our principles of British design and craftsmanship, advanced engineering and traditional manufacturing, remain the foundation of our success.

THE PERRIN & ROWE PROMISE

THE PERRIN & ROWE PROMISE

All Perrin & Rowe products are designed and manufactured in Britain.

We are driven by engineering excellence. We use state of the art manufacturing technology to support our traditional methods and skills.

Our brassware is made from low lead brass of the highest quality available. The surface is plated to a thickness that exceeds industry standards, ensuring a deep, protective coating that is resistant to wear and pleasing to the eye.

We assemble our brassware by hand, and individually water-test each one.

Our handles and spouts include bearing rings and engineering 'O' seals to ensure maximum durability.

Perrin & Rowe brassware has a 'wobble free feel'.

Our ceramic disc valves are tested up to 500,000 cycles and supplied by the world's leading ceramic cartridge manufacturer. On test, valves are repeatedly turned on and off with pressurised water to the equivalent of 25 years' use in a domestic installation.

Perrin & Rowe specifically manufacture for different markets around the globe. No additional adapters or converters are required for installation.

Our aim is to offer the world's finest range of kitchen and bathroom products.

INSTANT HOT WATER TAPS

OUR HIGH QUALITY, ENERGY EFFICIENT HOT TAPS SUIT ANY KITCHEN STYLE – FROM CONTEMPORARY, THROUGH CLASSIC TO COUNTRY.

Our innovative 3-in-1 instant hot mixer is perfect for hot drinks, cooking, food prep and cleaning. We also offer a wide range of standalone dispensers designed to complement all of our current collections.

Available in all our standard and special finishes.

KEY FEATURES

Multiple pre-set temperatures ranging from 75°C to 98°C.

Digital temperature control via state-of-the-art digital touch screen display that is accurate to 0.5°C.

Rapid reheat with zero run off and spit free, plus hi-flow.

Unique anti-scald locking mechanism on all instant hot models.

Energy efficient system which saves time and water.

Compact and easy-to-install design, with moveable fixing bracket.

Non-pressurised filter housing for quick and easy filter replacement.

Limescale reduction to increase product lifespan.

Complimentary reminder service for replacement cartridges.

Backed by the Perrin & Rowe promise and competitive guarantees.

NANO FILTRATION CARTRIDGE

Nano filtration cartridge removes debris, water borne cysts, bacteria, chlorine, chemicals, bad tastes and odours.

Filter requires changing every 6 months.

REPLACEMENT FILTER CARTRIDGE

PRF1	£41.90
------	--------

DESIGNATED INSTANT HOT WATERWAY

Minimises heat loss, stops cross contamination and allows smooth water flow.

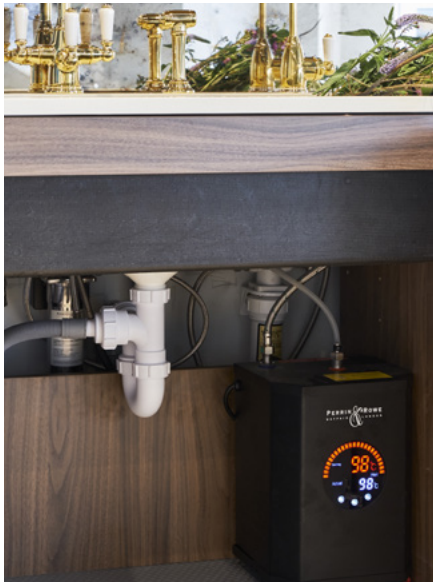

UNIQUE ANTI-SCALD LOCK

Innovative push mechanism and exclusive spring-back valve.

LED TOUCH SCREEN

Enables the user to instantly see the status of the unit.

The compact hot water tank and cartridge fits neatly underneath the sink, allowing easy access when servicing.

TECHNICAL SPECIFICATIONS

Uses standard 13amp socket.

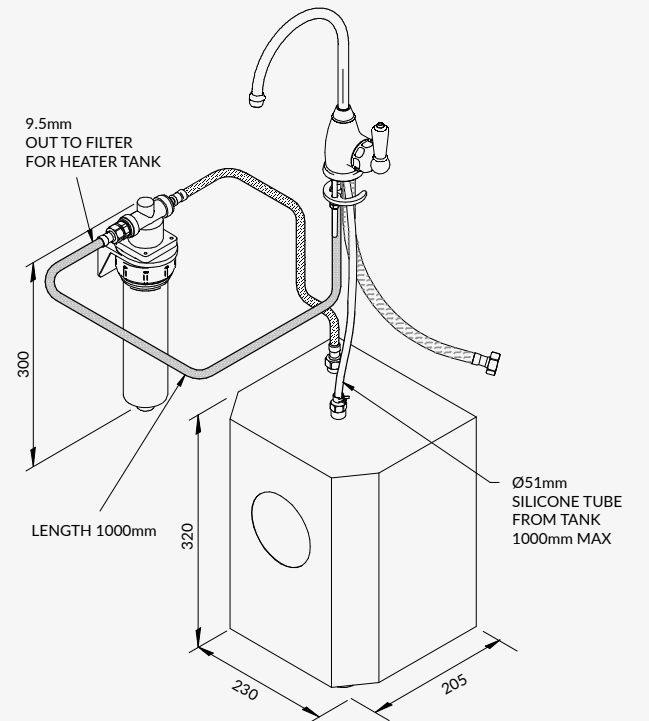

1.5KW element.

2.4 litre capacity tank.

Operates from as low as 1.5 bar.

6 month filter life.

Vented system.

PRECISION WATER FILTRATION

The technology behind Perrin & Rowe filtration taps derives from the world’s first three-way tap, delivering not only hot and cold water, but also filtered water through a dedicated waterway – a system that ensures the filtered water is not cross-contaminated by the standard mains hot and cold water.

It incorporates the highest standard Swiss-made ceramic filter which significantly reduces harmful substances, such as chemical and biological contaminates, as well as the most heavy metals and particles as small as 0.2 microns, while leaving beneficial minerals such as fluoride, magnesium and calcium untouched.

UNIQUE FOUR STAGE FILTRATION TECHNOLOGY

1. DIATOMACEOUS CERAMIC
Suspended matter and bacteria are retained on the ceramic surface without the use of chemicals.
2. ANTI-BACTERIAL SILVER
The ceramic permanently incorporates Katadyn silver that works against bacteria growth in the filter.
3. CARBON BLOCK CORE
Absorbs chlorine, harmful chemicals and organic contaminants that contribute to bad taste and odour.
4. ZEOLITE
Has the capability to remove heavy metals such as lead and mercury.

OUR FILTRATION MODELS USE NANO FILTRATION CARTRIDGES OFFERING BEST-IN-CLASS PERFORMANCE

The ceramic filter incorporated in the filtration system is the highest performing filter available in the market today and is made by Swiss manufacturer Katadyn.

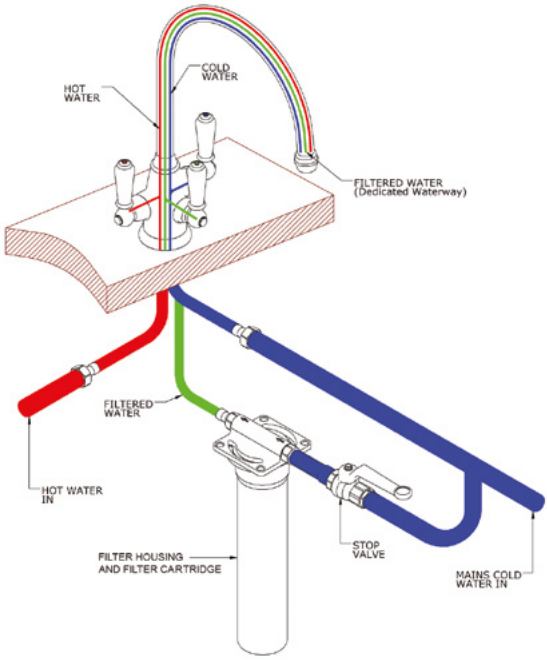

The cartridge is made from sintered diatomaceous earth and has a micro porous structure impregnated with silver which is known for its bactericidal action. The porous structure is able to eliminate particles down to 0.2 micron (0.0002mm) in size. One pound of carbon contains a surface area of roughly 125 acres and can absorb thousands of different chemicals. Activated carbon is carbon which has a slight electro-positive charge added to it, making it even more effective in eliminating chemicals and impurities.

As the water passes over the positively charged carbon surface, the negative ions of the contaminants are drawn to the surface of the carbon granules.

THE CERAMIC NANO FILTER

Made from sintered diatomaceous earth and has a micro porous structure impregnated with silver which is known for its bactericidal action.

The filter has been tested by:
Harvard University, USA
Waukesha County Health, USA
University Of Basel, Switzerland
Zurich University, Switzerland
Ministry Of Welfare, Argentina
Pasteur Institute Lille, France
South African Bureau Of Standards Pretoria, South Africa

NANO FILTRATION SIGNIFICANTLY REDUCES:

- Odour and bad taste,
 - Chlorine,
 - Organic components such as animal and human waste,
 - Bacteria such as E.Coli,
 - Protozoan cysts such as Giardia and Cryptosporidium,
 - Pesticides and herbicides,
 - Solvents,
 - Benzene,
 - Radon,
 - Turbidity,
 - Heavy metals such as lead.
- The filter does not eliminate important minerals such as magnesium, calcium and fluoride

THE SOUTHBANK COLLECTION

BY

PERRIN & ROWE®
L O N D O N

Inspired by the revival of British design at the 1951 Festival of Britain, the new Southbank collection brings mid-century style to the kitchen. Both a homage to furniture designers Robert Heritage, Gordon Russell and Ernest Race, and an entirely original and distinctive design, Southbank echoes their craftsmanship and attention to detail.

BY

PERRIN & ROWE[®]
L O N D O N

Made just a short walk from the old GWR works, where Joseph and George Armstrong built engines for Brunel's great railway, Perrin & Rowe's Armstrong combines an industrial aesthetic with a designer's eye for balance and proportion. Luxurious and refined, the Armstrong collection is a fitting homage to our industrial past.

THE JULIET COLLECTION

BY

PERRIN & ROWE[®]
L O N D O N

Perrin & Rowe's Juliet collection is a range of contemporary brassware infused with traditional values. The perfect proportions and depth of finish make the Juliet stand out in any modern kitchen. The comprehensive range includes instant hot taps, filtration taps and pot fillers.

THE LANGBOURN COLLECTION

BY

PERRIN & ROWE[®]
L O N D O N

Named after an ancient ward in the City of London where churches designed by Sir Christopher Wren are flanked by iconic skyscrapers. Langbourn’s clean lines and geometric forms are softened by organic curves. A modern range of brassware with clear roots in tradition.

PERRIN & ROWE[®]
L O N D O N

The quintessential traditional kitchen tap. Available as a bridge mixer or twin bibcock taps, with cross-top handles or levers, the Ionian adds timeless elegance to any kitchen. Especially popular in our unlacquered brass finishes – over time, each will develop its own beautiful and unique patina.

BY

PERRIN & ROWE[®]
L O N D O N

With a distinctive swan neck and characterful hot and cold ceramic indices, Perrin & Rowe's Etruscan is a traditional tap with a unique and lasting charm. Which is fortunate, as the Etruscan, like all Perrin & Rowe brassware, is engineered to last.

PERRIN & ROWE®
L O N D O N

Evoking the timeless appeal of a French farmhouse kitchen, the Provence collection has a style all of its own. Made the way brassware should be, in small batches, by hand, using high quality low-lead brass. Matched to a Shaws fireclay sink, a Provence tap is a natural centrepiece for a traditional, hard-working kitchen.

BRASSWARE FINISHES

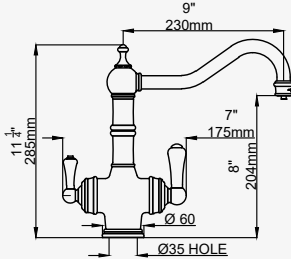

PRODUCT OPTIONS

INDEX

GUARANTEE

BRASSWARE FINISHES

Perrin & Rowe brassware is available in three standard and five special finishes. Special finishes come with an approximate 8 week lead time, this can be confirmed when placing an order.

A care guide is available for all finishes on our website.

STANDARD FINISHES

CHROME (CP)

A brilliant, silver finish with a hint of blue.

NICKEL (NI)

A shiny finish with a golden glow.

PEWTER (PF)

A brushed Nickel finish with a blue-grey, matte appearance.

SPECIAL FINISHES

ENGLISH BRONZE (BZ)

A metallic brown finish with subtle notes of orange and copper.

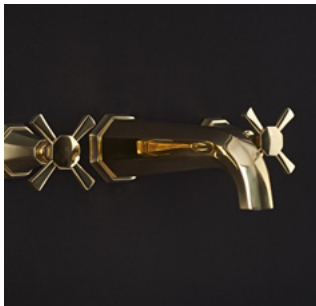

GOLD (IG)

Plated with 24 carat gold pure yellow in colour, with a natural glow and high shine.

LIVING FINISHES

The three brass finishes are described as 'living finishes' which means they develop a unique patina as they react with their environment.

POLISHED BRASS (BR)

A warm finish with coppery undertones.

SATIN BRASS (SB)

A matte finish with strong undertones of yellow ochre.

AGED BRASS (AB)

A darker finish with a tarnished, Aged look.

PRODUCT OPTIONS

Choose between White Porcelain and Black Porcelain handles. Taps are provided with White Porcelain handles as standard. If you would like to switch to Black Porcelain, replace 'WPC' with 'BPC' in the code when ordering.

PORCELAIN

WHITE PORCELAIN

WPC

BLACK PORCELAIN

BPC

WHITE PORCELAIN: SINGLE	WPC	£18.90
WHITE PORCELAIN: PAIR	WPC	£37.80
BLACK PORCELAIN: SINGLE	BPC	£18.90
BLACK PORCELAIN: PAIR	BPC	£37.80

Prices shown relate to spares or replacement handles only. It is recommended that these handles are purchased in pairs to ensure a perfect colour match.

Important Note:
The colours shown are not exact representations.

SPOUT OPTIONS

Choose between three spout options for a flow to suit you.

SINGLE FLOW SPOUTS

Single flow spouts are ideally installed in systems with equal pressures. Spouts are fitted with an aerator, providing the uniform 'Champagne style' flow as standard.

Minimum recommended installation pressure = 1bar.
A flow straightener is also available on request.

BIFLOW SPOUTS

Products with biflow spouts are ideally suited to installations with differing hot and cold supply pressures, especially where the hot supply is gravity fed.

Minimum recommended installation pressure = 0.2bar.
If your installation has equal pressures then you may prefer a single flow spout. All our biflow products are available as a single flow, just prefix the product code with the letter A.

REGULATED SPOUTS

If you have high pressures or are concerned about water consumption then you may wish to regulate the flow. All our products are available with regulated single flow spouts – just prefix the product code with AR.

Minimum recommended installation pressure = 2bar.

GUARANTEE

GUARANTEE

All products are manufactured in the UK from the highest quality raw materials available.

Plating on Perrin & Rowe Products exceeds the industry standard by 10 microns: standard at 15 microns, and Perrin & Rowe at 25 microns. This additional plating will ensure a deep, protective coating that is resistant to wear and tear and is very pleasing to the eye.

Each product is assembled by hand and individually water tested to ensure peace of mind.

All products include bearing rings on valves for maximum durability. Bearing rings give Perrin & Rowe products a stable “wobble free feel”. Engineering ‘O’ rings are also used. These ‘O’ rings are more durable than standard washers and less likely to cause problems due to drips and leaks.

Ceramic disc valves are supplied by Flühs of Germany, the world’s leading cartridge manufacturer.

For warranty details, see houseofrohl.design

IMPORTANT INFORMATION

Perrin & Rowe kitchen products have a minimum recommended installation pressure of 0.2bar and a maximum recommended installation pressure of 5bar, with the following exceptions.

RINSE OPTION/SINGLE FLOW SPOUTS

Minimum recommended installation pressure:
Single flow spouts = 1bar.
Taps with rinse = 1.5bar.

Maximum recommended installation pressure = 5bar.

Rinse hose standard length = 1200mm.

Rinse hose not to be connected directly to cold mains; separate from main mixer.

All rinse options have single flow spouts.

Perrin & Rowe is manufactured by TCL Manufacturing Ltd.

Due to TCL Manufacturing Ltd continuing policy of product development, we reserve the right to modify or alter designs at our discretion.

TCL Manufacturing Ltd Terms and Conditions are available upon request.

All measurements shown in this document are in millimetres (mm), unless stated otherwise.
